

TRUSTED SOLUTIONS SINCE 1985

Since 1985, Parlee Manufacturing Company Limited has been manufacturing quality, functional, durable Canadian made products.

A locally owned, independent small business operating from our shop in Liverpool, Nova Scotia, we strive to be responsive to ever-changing requirements when providing specialized solutions for customers across Canada and Internationally.

Many have come to know us for our backpacks, safety, and outdoor sporting equipment. Building on this, Parlee Manufacturing has evolved our product line, becoming a preferred supplier of medical equipment packs and bags for several provincial EMS organizations and a growing list of agencies and departments within and outside the province.

Bearing Glenn Parlee's family name, he takes particular pride in Parlee Manufacturing, not only in the quality of the products themselves, but just as important, the team who makes these products. Joined by his wife Kathi, and their production team, this is a long-standing family business.

Building on our experience, pride in products and a track record that distinguishes us from our competitors, we invite you to explore the Parlee product line. If you require any assistance in determining what packs and components might work best in your unique situation, contact us and we will work with you to determine the best pack solution for you!

ABOUT PARLEE VIP (VERSATILE INTEGRATED PACK) SYSTEM

No matter what industry you are in, if you are on the go and require rugged packs for carrying sensitive and fragile equipment, take a look at our VIP System.

This pack system is a model of organized efficiency with its custom configuration, easily integrated modules and extreme durability.

Our packs are currently used by several branches of first responders (ground and air EMTs, firefighters and police) who perform life-saving procedures when time is precious.

Although originally designed for medical applications, the versatility of the Parlee VIP System is well suited for any situation where organization is important.

We know your equipment doesn't always fit into someone else's predetermined design, so we offer a tailored pack that you modify to accommodate your specific needs.

Designed and skilfully manufactured right here in Canada!

PARLEE VIP (VERSATILE INTEGRATED PACK) SYSTEM

SIZES: MEDIUM, LARGE, EXTRA LARGE

Constructed of rugged materials including 1000D Cordura nylon, and 400D Ripstop nylon.

Main compartment features closed cell foam padding and is lined with velcro sensitive material to accommodate various VIP Anchors and Organizer Pockets. The pack opens with a double-pull zipper for one-hand operation; the inside of the flap provides another attachment point for modules such as an additional pocket or clear vinyl sleeve for charts, information sheets, and other documents.

With a core of closed cell foam, the internal dividers are the framework of your pack's configuration and provide additional strength. Your components fit snugly between the dividers to keep your items safe and organized to your specifications.

Includes two hip belt holsters, to keep your hip belt straps out of the way when they aren't needed, as well as one large and one small pack divider.

Safety-enhancing reflective strips easily replaced if they get worn

Top Pocket
Can be quickly removed for portability and multi-tasking

Detachable service badge holder

Front Pockets
Can be laid flat or hinged to hold it at 90 degrees; add dividers to keep items neatly organized

All external pockets are removable and can be purchased separately to allow for multiple configurations or replacement if needed.

Base structure of the pack is black in colour.

Top and Front Pockets are available in 9 colour options, see page 19

Pockets can be purchased separately to allow for multiple configurations or replacement if needed.

PARLEE VIP (VERSATILE INTEGRATED PACK) SYSTEM

SIZES: MEDIUM, LARGE, EXTRA LARGE

PARLEE VIP (VERSATILE INTEGRATED PACK) SYSTEM

SIZE: SMALL

Similar to our VIP extra large, large and medium packs.
This pack is constructed of rugged materials including 1000D Cordura nylon.

Restraints are rated for 10 G to ensure
it never breaks free during transport

Double pull zipper to
open the entire pack

Safety-enhancing reflective strips
easily replaced if they get worn

A replaceable 18 oz PVC
skid plate to protect the
back and bottom against
wear and moisture

FRONT POCKET

BASE

External front pocket can be quickly removed for portability
and multi-tasking keeping items neatly organized.

See pages 11-19 for add-ons
and components to keep
your VIP gear organized.

WHAT MAKES THE VIP AN EXTRAORDINARY PACK?

Versatility

We want to provide our customers with a pack that works for them, their layout, their vision.

Organization

Offering endless options for each customer to organize their contents. This promotes user efficiency, allows multitasking, and reduces stress.

Protection

Equipment is expensive. VIP packs and bags are designed to protect your valuable contents.

Durability

The VIP system is built to last. To help extend the life of these products we offer user replaceable skid plates to take the majority of the abuse and user replaceable components such as reflective strips to keep your packs in service as long as possible.

VIP SYSTEM SIZING

PARLEE VIP VEST

Our VIP (Versatile Integrated Pack) Vest was developed from our experience in the design of our integrated pack systems. This vest allows you to design your own vest choosing the components that will best suit your specific needs. In addition to this, when your needs change, your vest can change with you.

The vest body is constructed using velcro sensitive material and 400d nylon. It is fully adjustable in height and width.

Each pocket component is equipped with a velcro hook system that allows it to be securely placed anywhere on the exterior of the vest to accommodate your specific needs.

All of the VIP Anchor components used in our VIP System can be used in the VIP Vest.
